

Don't Kit-nap Kittens!

If safe, leave the kittens alone: Mom offers the best chance for survival and is likely out hunting and will return.

DID MOM COME BACK WITHIN 6 HOURS?

YES

Hooray! Let mom care for them until they are 4-8 weeks old. We can help you make sure both mom and kittens are spayed/neutered. If the cats aren't tame or you have any questions regarding their care, call us at **321-567-3615** and we can point you in the right direction.

NO

We can help you, help them. If mom has vanished for more than 6 hours, the kittens are likely orphans. We can typically take in young kittens, however, we really need temporary foster homes. If you can foster, you will literally be part of saving lives. Contact us for more information!
